

Consider HSS for your partial knee replacement

Partial Knee Replacement Scorecard

HSS

HSS has developed a new tool called the **Hospital Reliability Scorecard**. The tool features five factors that are important to consider when choosing the best hospital for your needs, so you can better evaluate your options.

This scorecard provides data specific to partial knee replacement at HSS. But you can ask any hospital for this data, no matter what surgery you need.

Why the 5 factors of reliability are important

Not all hospitals are the same. Some are more reliable than others. And this difference can increase the chances that you'll experience a setback, such as a complication in the hospital or something else that happens once you're home. The five factors can help you protect yourself from these avoidable risks. Find out which data to ask for and learn why the five factors matter to your health.

Success Rate

94%¹

Out of 49 responses, 64% response rate

Of HSS patients **reported improvement** **within 12 months** after their treatment

Complications +

1.7%³

Complications within 90 days of surgery

VS.

2.9%³

National Rate

Lower is better

Avoidable Hospital Visits

1.1%³

HSS Hospital visits following procedure

VS.

4.2%³

National Rate

For inpatient procedures
Lower is better

Procedure Volume

730¹

Unicondylar knee procedures per year

Patient Experience

90%²

Of patients **would recommend HSS**

Over the national average of **70%**²

★★★★★

4.9 out of **5**

Based on **18,499** patient ratings*

The five factors of reliability

Ask your hospital for this information. The data will be different for each hospital you're comparing.

Success Rate

Tracks whether patients report feeling better one year after treatment.
Higher is better.

Patient Experience

Would patients recommend this hospital to others?
Higher is better.

Complications

Shows how often patients develop medical problems while in the hospital.
Lower is better.

Avoidable Hospital Visits

Shows how often patients need to be re-hospitalized after their initial treatment.
Lower is better.

Procedure Volume

Practice makes perfect. Seek out a hospital with lots of experience doing this procedure.
Higher is better.

About partial knee replacement

What

A knee replacement surgery that replaces only one compartment of the knee (either the medial or lateral) with implants, while preserving the healthy tissue of the other compartments. Also known as "unicondylar knee replacement."

Where

Takes place in a hospital or ambulatory surgery center.

Length of Hospital Stay

Less than one day in most cases, however, it can extend to an overnight stay depending on your overall health and access to caregiver support at home.

Testimonials

"This summer I hiked 200 miles. I've never seen such knowledge, skill, dedication and compassion in any other health care institution. HSS is truly the best."

Christopher, Partial Knee Replacement

A comprehensive comparison tool

Hospital Reliability Scorecard

HSS

It's important to make informed decisions about your care. The following questions were designed to help you better understand the differences in how well a hospital performs your procedure for so you can avoid unnecessary risks. Ask your provider for this data. Much of the data is also available at www.medicare.gov/care-compare

	HSS Hospital for Special Surgery	National/State Rates		
 Success Rate <i>Higher is better</i> Q: What is the patient-reported success rate for my procedure?	94% ¹ Of patients reported improvement	N/A		
 Patient Experience <i>Higher is better</i> Q: Are patients likely to recommend this hospital? Ask for the "likelihood to recommend" metric from CMS Care Compare. Tip: look for stories from real patients on social media and the hospital website	90% ² Of patients would recommend HSS	70% ² National Average		
 Complications <i>Lower is better</i> Q: What is the complication rate for the hospital? For my procedure?	1.7% ³ Complications within 90 days of surgery	2.9% ³ National Rate		
 Avoidable Hospital Visits <i>Lower is better</i> Q: What is the rate of re-hospitalizations for the hospital? For my procedure?	1.1% ³ HSS Readmissions	4.2% ³ National Rate		
 Procedure Volume <i>Higher is better</i> Q: How many orthopedic patients does the hospital see each year? How many patients are seen with my specific condition?	730 ¹ Unicondylar knee replacements per year	N/A
